REQUEST FOR CONSIDERATION OF DISCLOSED INFORMATION

Honorable Commissioner for Patents  
Customer Service Window  
Randolph Building, Mail Stop  
401 Dulany Street  
Alexandria, VA 22314

Sir:

This is not a substantive response to the Examiner's  
Action of April 18, 2006.

In that Action, the Examiner indicated that she would not consider the information listed on forms submitted together with this Application for formal reasons.

This Action is clearly incorrect. According to MPEP §609 I.2., "the Examiner will consider information which has been considered by the Office in a parent application when examining a continuation application...A listing of the information need not be resubmitted in the continuing application unless the applicant desires the information to be printed on the patent."

Thus, the information listed by applicant must be considered whether or not proper listings are filed. However, since in the present case a listing of the information was resubmitted, it is understood that this information will be

printed on the resulting patent. To facilitate matters, submitted herewith are duplicate copies of the listings originally submitted in the parent application. These copies have a column that provides a blank space next to each document to be considered, for the examiner's initials. As regards the PTO-892, this was prepared by the Examiner and does not relate to an information disclosure statement filed by applicant. Therefore, that form is not governed by 37 CFR §1.97 and 1.98. It is difficult to imagine that an examiner would refuse to consider and make of record prior art cited by the Examiner in a parent application. Indeed, it is questionable as to whether those rules even apply to copies of previously submitted listing.

Accordingly, consideration of the listed prior art and printing of the information on the resulting patent are requested.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.  
Attorneys for Applicant
